- Environmentally sensitive low VOC and HAP "Black Tea" finish
- Low formaldehyde E-1 grade MDF core in veneered inset panels
- Custom bin pulls and turned knobs in Burnished Brass Finish

Crescent is proud to be one of the founding members of the Sustainable Furniture Council (SFC). SFC is a new industry organization formed to promote sustainable practices within the home furnishings industry and raise awareness among consumers and buyers.

As a family business that manufactures home furnishings, we are aware of the threats to the environment that our industry inflicts. Our family is working to expand our sustainable practices and is committed to continuous improvement in all of our activities. Specifically, we are working with our finish suppliers to use coatings with low emissions (VOCs and HAPs) and our lumber vendors to ensure an increasing percentage of sustainably forested timber is available for our products. For our furniture packaging, we specify high recycled-content boxes, printed with soy or vegetable-based inks. We recycle all of our inbound packing materials and all office waste that is recyclable. We specify FSC certified papers for all of our marketing materials including this brochure. For a complete list of our sustainability efforts please visit www.crescent.com/sustainability

All of our furniture is built to the same time-honored specifications upon which our company was founded. We utilize only the finest furniture hardwoods and veneers for case construction. We feature mortise and tenon joinery, dovetailed, smooth running drawers and custom designed hardware. All of our finishes are applied by hand and protected with two coats of furniture lacquer.

CRESENT is celebrating 60 years as a family business and would like to introduce you to our company and the home furnishings that we offer. Our designs range from transitional to Art Deco and include updated traditional and contemporary influences.

We are proud to have been in the business for six decades and as our third generation family management team begins to hit their stride, we want you to know how we have changed with the industry, while sticking with some Core Values our founder insisted upon:

- **Treat customers fairly.** *If you do so, they will keep coming back.*
- **Do what is right.** *It may cost us a few bucks today, but it builds brand loyalty down the road.*
- **Make a good product.** *We continuously strive to improve our products and processes and pass along those improvements to the consumer in the form of better home furnishings.*
- **Have fun.** *Enjoy what you are doing and the people you work with.*
